

AEROSPACE JOB OPPORTUNITY

July, 2008

Position Specification

Position Title: Aerospace Engineer

Location: Atlanta, GA

Aerotomy, Inc. is an aerospace research and manufacturing company based in the metro-Atlanta area that is dedicated to the development of state-of-the-art aerospace systems with highly autonomous capabilities. In particular, Aerotomy specializes in Unmanned Aircraft Systems (UAS) and flight test related technologies, products, and services.

Position Summary:

Aerotomy is looking for a highly motivated individual with excellent technical, interpersonal, and communication skills. This individual should be able to work in a team environment as both a team leader and a team member. Experience in the following areas is a plus:

- Detailed structural and mechanical design applied to UAVs and UAV subsystems.
- UAV fabrication, avionics integration, and flight testing.
- Fabrication of composite components.
- CAD, including SolidWorks
- Computer programming including fluency with C and a knowledge of MATLAB.

Part-time and full-time positions are available immediately and both undergraduate and graduate applicants are welcome. Applicants should meet eligibility requirements for a U.S. security clearance.

Contact Information

An electronic copy of a cover letter and resume in a single PDF file should be sent to:

Hilary Beeston
Aerotomy, Inc.
hbeeston@aerotomy.com

The applicant should be available to commence employment during August, 2008. For best consideration, candidates should apply before July 25th, 2008. Aerotomy, Inc. is an equal opportunity employer.
